

POD's General Comments

1. Request a Host Nation Process (similar to newly added process for Army Medical, Air Force Military Construction, etc.) be added to PMBP. Response: POD and NAD will evaluate requirement and recommend a solution.
2. Review excluded reports noted in manual, POD's RWG would like to see reports that will be generated by P2. Response: Reports team will provide a sample of reports by end of June through your BP/P2 team member.
3. [Non-RWG] It would be helpful to clearly note in all processes and references where local SOP should govern. Some processes make a note of this and others do not. This will ensure uniformity among MSCs and Districts. Response: Edit team will ensure conformity of minimum requirements for local SOPs.
